How To Set An Energy Vortex Around Your Bed

Large bottles on the outside of bed
Small bottles under the bed

Place this bottle first

Place this bottle third

Place this bottle last

Place this bottle second

Placing the bottles as designed will create a counter clockwise spinning vortex around the bed and a safe space for sleeping. Recharge bottles every 5 to 7 days.

THE FREQUENCY BOTTLE COLLAR

HOW TO USE & CHARGE YOUR COLLAR

Your Frequency Bottle Collar has the ability to last you a very long time with proper care. It does not hurt the collar to get it wet. However, we do not recommend soaking it in water.

The bottle use choose should be clear. It does not matter the size. The collar can fit on any bottle as shown in the picture.

To use on your shower. Wrap collar around the pipe from the wall to shower head as many times as possible and connect snap.

Your collar requires a **recharge between 9 and 12 months** to maintain the level of energy for optimal frequencies for the most effective structuring and frequency infusion.

To charge your Frequency Bottle Collar is very easy to do.

Simply grab your cell phone with your Bio-Photonic Charger App on it if you have it. Open the Bio-Photonic Charger App and start your app with the flashlight on. Run charger 3 or more times to recharge.

Now hold your flashlight light, directly on the brass looking button where the collar snaps together. Sound is running and your collar is being recharged with the **37 life-enhancing frequencies**.

Your SPRAY BOTTLE is still one of your most powerful tools.

On the back you will find instructions on how to spray your coffee cups, water and wine glasses and your bed vortexing jars. Create energy vortexes and much more. Fill bottle from collared bottle.

Spray your pets, your kids and **everything** in your life as we are slowly changing the vibrational energy of ourselves and the world around us **with** unlimited access to **Bio-Water**.
